🔗 Portfolio

## Summary

Highly motivated and hardworking frontend developer with over two years of professional experience. Proficient in JavaScript, TypeScript, and JSX, with expertise in HTML5, CSS3, and React framework. Skilled in data structures, algorithms, and software development, with a strong commitment to excellence. A collaborative team player with a keen interest in staying updated with the latest technologies. Seeking to leverage my skills and experiences to contribute to the company's objectives and deliver exceptional results.

## Work experience

2022/06 – 2022/08  
Ankara, Türkiye

**Software Engineer**  
**NANODEMS YAZILIM TEKNOLOJILERI**

In my previous role, I focused on integrating third-party software and firmware for remote device management via our NDIS product.

2021/11 – 2022/09  
KUWAIT, KUWAIT

**Web Development**  
**PROPRINT SOLUTIONS**

Performed and directed Website updates. Developed custom websites to meet individual client needs.

2024/05 – 2024/08  
Remote

**Software Developer**  
**Self-Employed**

I developed a patient information management program where I designed and implemented a user interface using Python and Tkinter. This interface allows users to input and store patient information efficiently. I integrated file scanning and storage functionalities, enabling the scanning of patient files with automated storage of file paths in a database for easy retrieval. Additionally, I implemented advanced search functionality, creating an interface for querying and displaying patient data, which significantly enhanced the speed and accuracy of data retrieval.

## Education

**Master of Computer Engineering**  
**Sakarya University**  
Sakarya, Türkiye

**Computer Engineering Bachelors**  
**Sakarya University**  
Adapazari, Türkiye

## Projects

**GIVINGLY** [🔗](#)  
**HTML, CSS, TAILWIND, NEXTJS, FIREBASE, REDUX, CYPRESS**

Our Re:Coded graduation project involved creating a dynamic crowdfunding platform with modern technology for user-friendly campaign creation and management across various project categories.

**CAR SHOW** [🔗](#)  
**TYPESCRIPT, NEXTJS, TAILWIND**

**NETFLIX CLONE** [🔗](#)  
**HTML, CSS, REACT, FIREBASE**

**Beaches Travling** [🔗](#)  
**HTML, TAILWINDS, JAVASCRIPT**
